

BE Group Poland – part of BE Group

About us

- BE Group Poland is part of BE Group, a service company, offering a range of steel and aluminum products.
- We offer products and production service to customers primarily within the construction and engineering sectors, based on each customer's needs in terms of materials and production.
- With our thorough knowledge and well-established relations in purchasing, logistics and production, we develop solutions to strengthen our customers' competitiveness.

Location

Production site of BE Group Poland is located in center of country,

Quality in BE Group Poland

- Our site is certified according to: ISO 9001, ISO 14001, EN 1090, EN 10204

Production capacity BE Group Poland

- **Our main service range is:**

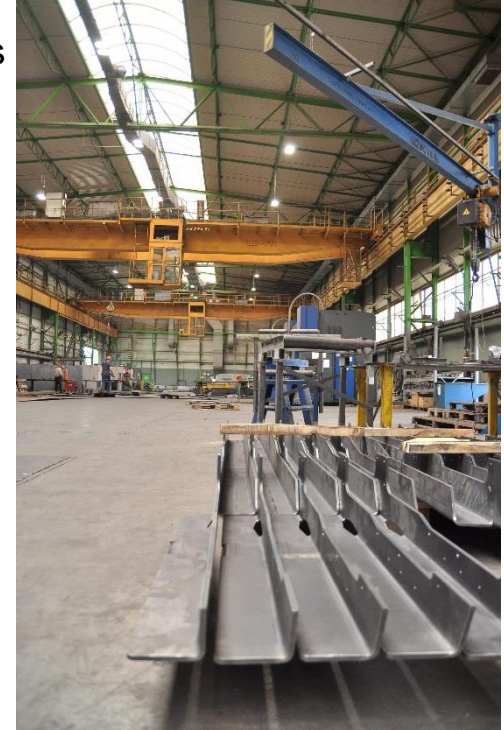

- Cutting – laser, plasma, flame cutting of carbon and stainless steel plates and aluminum
- CNC drilling
- Bending
- Mechanical treatment
- Shot blasting
- Bevelling

For more details see below:

Production site

- 2 production buildings with total area of 4600 m² under the roof
- Lifting capacity: 2x 8T in building A, 4x 10T in building B, forklifts, cranes

Production capacity BE Group Poland

- Flame cutting

- **Messer EasyTherm 5000**

- Table: 4200x25000 mm

- 4 x Alfa torches

- Thickness range: 5 – 300 mm

Production capacity BE Group Poland

- Plasma cutting

- **Eckert**

- Table: 4200x25000 mm

- 2 x plasma torch, 2 x flame torch

- Thickness range:

- aluminum and stainless: 2-20 mm

- carbon steel: up to 40 mm by plasma
up to 200 mm by flame

- **Zakmet**

- Table: 3000x12000 mm

- 1 x plasma, 1 x flame torch

Production capacity BE Group Poland

- Laser cutting

- **Bystronic Bystar L4025 6000W**

- Table: 2500x8000 mm

- Power: 6kW

- Thickness range:

- carbon steel: 1 – 25 mm

- stainless: 1 – 15 mm

- aluminum: 1 – 15 mm

- **Bystronic Bystar L4020 4000W**

- Table: 2000x4000

- Power: 4kW

Production capacity BE Group Poland

- Bending
 - **Safan H-Brake Tandem**
 - Strength: 480 + 480 tons
 - Bending length: 4200 + 5100 mm
 - Max length of bending in dual work
 - up to 9,3 m

Production capacity BE Group Poland

- Drilling
 - **CMA CNC drilling and threading center**
 - working area: 780x6000 mm
 - drilling up to $D = 42$ mm
 - bevelling as the option
 - 3-axis CNC control
 - **Janus WR-80/2500**
 - working area: 1200x2400 mm
 - drilling up to 80 mm
 - threading up to M24

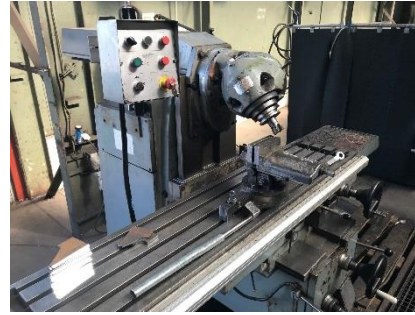

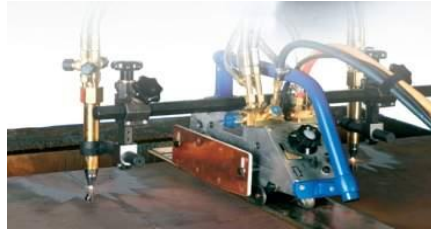

Production capacity BE Group Poland

- Shotblasting
 - 2000 mm entrance
 - blasting in Sa 2,5 as a standard
 - surface treatment of plates and cut elements

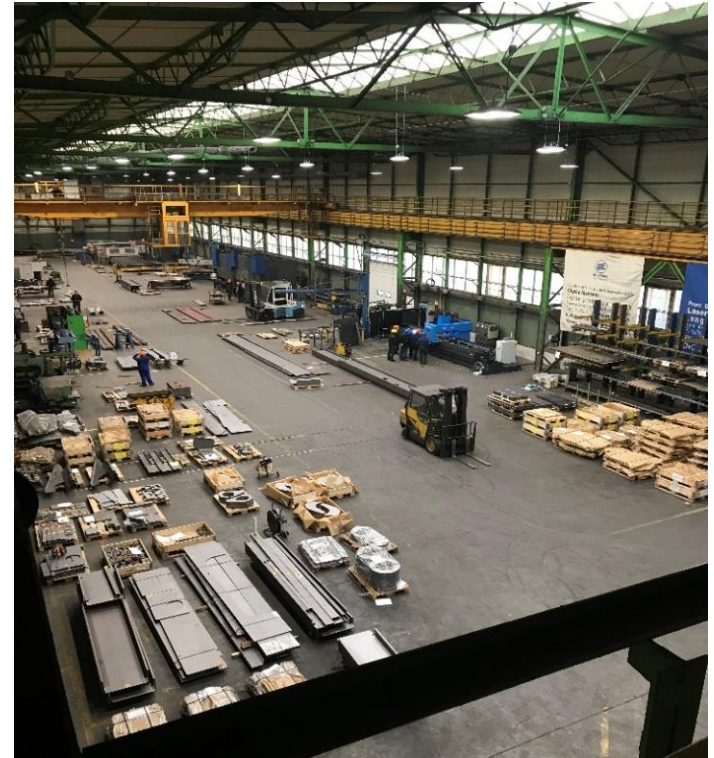

Production capacity BE Group Poland

- Machining / Bevelling / Chamfering as a welding preparation

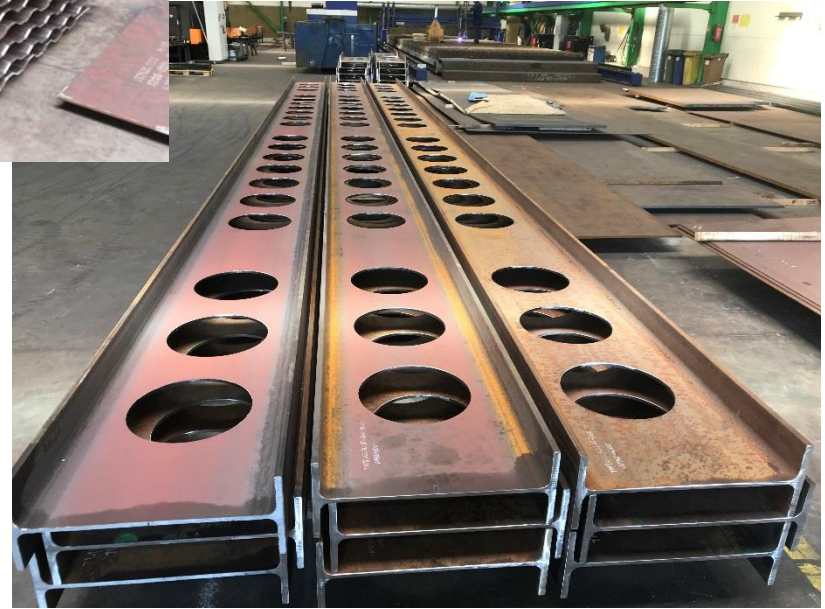

Production capacity BE Group Poland

- Logistics

Production capacity BE Group Poland

- Other services:
 - raw material supply
 - CNC milling
 - turning
 - straightening
